

Cecilia Philbin

Violinist and Pianist

Cecilia Philbin is teaching beginner violin students using the Suzuki approach. She grew up learning to play the violin and the piano using both the Suzuki and the classical style. “The Suzuki Method is a wonderful way to start beginners, because it allows the student to get comfortable with the new instrument and develop an ear for listening before learning how to read music, which is yet another new skill to master.”

At present, Cecilia is a member of the Mountain View Music Chamber Ensemble and is working on more advanced Suzuki training. She welcomes students of all ages.
